We're innovative people redefining print.

Quad/Graphics is the quintessential American business success story. By doing things differently and better for more than 40 years, we've grown from humble beginnings in rural Pewaukee, Wis., into the world's second largest provider of print and multichannel solutions. Our 2010 acquisition of Worldcolor and our new status as a publicly held company strengthen both our industry position and financial stability. This keeps us at the vanguard, where we're consistently uncovering the next revolutionary idea to push print's potential and make it more relevant, cost effective and profitable for you.

The New Quad has employees and facilities worldwide. While our size has increased, our values remain the same. Our focus is your success.

Our mission
We are a value-driven company committed to our clients, employees, shareholders, communities and the environment.

As the industry leader, we take print to a higher level through service, quality and technological innovation.

We will grow our clients' profitability by providing high value at a lower per-piece cost.
