

Exhibit 1

Rosebud Mine – Montana

Western Energy Company – Rosebud Mine

Western Energy Company – Rosebud Mine is a 25,000-acre surface mine complex located in the northern Powder River Basin near Colstrip, Montana, and the Northern Cheyenne Indian Reservation. Rosebud is a large operation with three active pits and supplies almost all of its current production to the four-unit 2,100 megawatt Colstrip Power Station that is adjacent to the mine and was specifically designed to burn Rosebud coal.

Coal is sold to the Colstrip Station under two long-term contracts. Colstrip Station is one of the region's most cost-efficient and cleanest power plants, which should help it maintain a base-load position on the electricity dispatch curve, and ensure continued strong demand for Rosebud coal. The Rosebud Mine produces approximately ten to thirteen million tons per year.

Safety Awards

2011 Sentinels of Safety Award in the Large Surface Coal Group for
Performance in 2011

2011 MSHA Certificate of Achievement in Safety, Large Surface Coal Group -
No Lost Work Days

2011	MSHA Certificate of Achievement in Safety, Large Coal Processing Facility Group - No Lost Work Days
2005	Office of Surface Mining and Enforcement (OSM) - National Award for Excellence in Surface Mining
2002	Montana Recreation and Parks Association - Citation of Merit

Environmental Awards

Montana Recreation and Parks Association

2002 Citation of Merit

U.S. Department of the Interior (OSM) - "Excellence in Surface Coal Mining & Reclamation Award"

2011 Directors Award

2006 Good Neighbor Award

2005 Area A Final Reclamation Design

1999 Sharp-tailed Grouse Dancing Ground

1998 Eagle Rock Mining - Area C

1997 Hall of Fame - Rangeland Reclamation - 1991

1997 Finalist - Eagle Rock Mining - Area C

1997 Finalist - Mixed Shrub Reclamation

1993 Salvaging Petroglyph in Tact

1991 Rangeland Reclamation

U.S. Department of Energy

1987 Award for Energy Innovation

National Institute for Urban Wildlife

1987 Outstanding Conservation Award

Miscellaneous Certificates

1985- The Nature Conservancy, Montana Centennial Project - Certification of

1989 Appreciation - Conservation of Columbian Sharp-tailed Grouse

1987 National Institute for Urban Wildlife - Urban Wildlife Sanctuary
