Subject: Kemmerer Mine Bonding Solution

Keith,

Aon is pleased to confirm to you that Argo and One Beacon are willing to provide surety bonding confirmation in connection with the Kemmerer Operations proposed acquisition, capacity of which will be sufficient to replace Zurich's current bonds with respect to the Kemmerer Mine. These terms are subject to the sureties standard customary underwriting conditions. Note that both Argo and One Beacon have indicated in writing that they are prepared to work expeditiously with you and your team to finalize definitive documents and move forward with bond issuance when required to do so.

Thanks

Nenad Osmanovic | Account Executive

Aon
